

# Extreme scenarios

## Scenarios and challenges creation tool (2/3)

This tool helps you bring together and consider the necessary ingredients to create a scenario from which you can later create design challenges. At first use this tool to create multiple options for each persona and then later refine it until you have a scenario that you think will be meaningful.

Create a short title describing the scenario

**For...**  
Persona's name

Add a photo of the persona here

**Who is:**  
Write the persona's key attributes

**Happiness is connected to...**  
Write the needs they have that need to be fulfilled for them to be happy

**Signal 1:**  
Title of the signal

Add a photo that identifies the signal

**Signal 2:**  
Title of the signal

Add a photo that identifies the signal

**But in a World where...**  
What does the signal suggest will change about the context?

**and...**  
What does the signal suggest will change about the context?

**It's possible that...**  
Describe the implications that this new context will have on the persona
